Learning how to provide for the family...

REAP brings improvements to the home

One way that REAP has been very effective in changing the lives of the rural poor has been in the home

The differences that REAP's teaching makes brings pride to Africa's poor as they gain self respect and dignity

REAP has witnessed whole communities transformed as they have grown in confidence and wellbeing

Making new things from old...

Knowing how to make living easier...

Becoming aware of new skills...

Building self esteem...
